Lorenzo Walker Technical College

Brand Style Sheet

Colors, type, logo versions and program icons for Lorenzo Walker Technical College, built from the supplied black and white logo files.

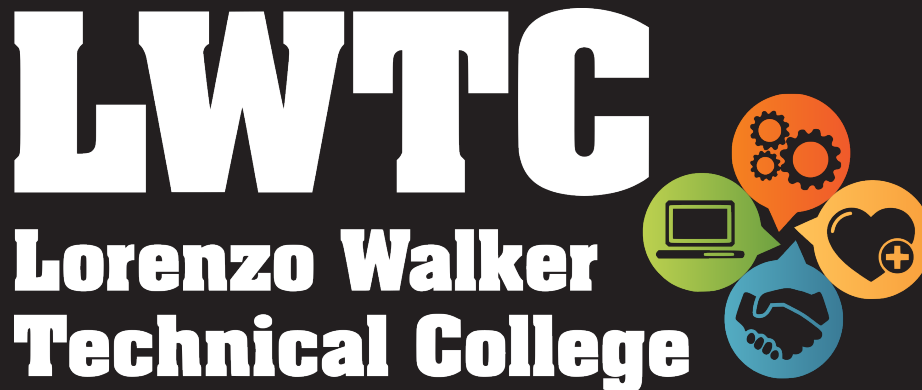

Wordmark ink #231F20

Logo

Three lockups, supplied as SVG vectors.

Primary: black wordmark (lwtc-logo.svg). Use on white or light grounds.

Reversed: white wordmark (lwtc-logo-reversed.svg). Use on dark or photographic grounds.

Icon cluster (lwtc-icon-cluster.svg)

The four-bubble mark alone, for avatars, favicons and small spaces. Below about 48 px tall, use it instead of the full lockup.

Suggested rules (not official): keep clear space around the logo of at least the height of the letter "L" divided by four; do not recolor, stretch, rotate, outline or add shadows; never place the black wordmark on a dark ground.

Color

Sampled from the logo pixels. Each bubble fades left to right.

Wordmark ink

The hues do not reach 4.5:1 contrast against white. Use them as large fields and illustration, and set text in ink (#231F20).

Typography

Wordmark: an ultra-heavy Clarendon-style slab serif (visual match; the original font file is unconfirmed).

Headlines: Alfa Slab One, with Clarendon Black or Rockwell as fallbacks. Text: Source Sans 3. This PDF uses DejaVu Serif and Carlito as stand-ins.

Shape and spacing

Every round form is a speech bubble: a circle with one square corner pointing toward the group center. Spacing steps: 4, 8, 16, 24 and 48 px. Corner radii: 4, 12 and 48 px.

Iconography

Each bubble is a white glyph on one gradient hue.

About these vectors: the SVG files were traced from the supplied PNGs, so curves closely follow the originals but are not identical. Wordmark letters are outlines, so no font is required. For print or signage, request the original vector files from the college.
